

## Identify Interventions Impacted by Change Report

**Parameters:** Report Type: Tool

**Prepared by:** BNH Director

**Date:** September 2017

Identifies Courses, Lessons and Learning Objectives that could be impacted by a change to a Reference, Policy or Tool.

### MRAP

Job Profile	Performance Objective	Course	Lesson	Learning Objectives
<b>Tool: Fuel System</b>				
Driver	Maintain the fuel system.	Driver MRAP	Lesson 7	Components to include: (1) engine components; (2) fuel access covers; (3) fuel filler neck; (4) fuel tanks; (5) fuel header/feeder tank; (6) ventilation and bleeder valves; and (7) drain plug.
			Lesson 8	Driver compartment to include: (1) fuel level warning light; (2) fuel level gauge; (3) fuel gauge selector switch; and (4) accelerator linkage.
			Lesson 8	Fighting compartment to include: (1) fuel pre filter; (2) fuel inlet filter; (3) fuel changeover lever; (4) fuel pumps; and (5) fuel pump emergency switch.
			Lesson 8	Hull underside: fuel drain access cover.
			Lesson 8	Perform refuelling procedures. Fuel transfer system to include: (1) description; (2) components; (3) preparation; (4) defueling; and (5) fuelling.

---

Maintain the combustion air system. Driver MRAP

Lesson 9 System maintenance to include: (1) servicing the components, and (2) refuelling.

Description of the system and its components to include: (1) description, (2) components: (a) back deck, (b) fighting compartment, and (c) driver compartment. Maintaining the system to include: (1) maintenance, and (2) inspection of the system. Safety equipment (PPE).

Lesson 9 Safety points (compressed air dangers) to include: (1) when using compressed air, you must be aware that it is very dangerous. If you have any cuts in your skin, compressed air can enter your body system and cause severe risks to health, (2) if compressed air enters the body, it acts the same way as the bends to a diver. at the very least, it will cause agony. at the worst, it will cause death and (3) to prevent these problems, ensure that you always point the nozzle away from your body and never point it in the direction of others.
